

Intex[build with
confidence]

Independently Validated

We put our systems through rigorous testing so you can build with confidence. We've partnered with leading institutions and accredited laboratories, including CSIRO, Monash University, Swinburne University and Griffith University, to independently test and validate the performance of our wall and ceiling systems across a range of applications.

[View Campaigns](#)

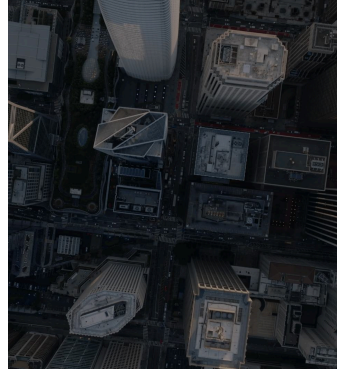

From fire, corrosion and acoustic performance to controlled capacity and pull-out testing, these evaluations help ensure our systems perform as designed, giving you the confidence to choose, specify and build with the right wall and ceiling solution.
