

Facility

"Our relationship with the National Sales Manager was a major factor in choosing Intex for this project. The team consistently went above and beyond to support us, and the stud and track have proven reliable and easy to work with."

Brad Hanson GV Plaster - Director.

The new St Joseph's College redevelopment in Echuca brings together purpose-built spaces for learning, sport and performing arts.

Intex supplied a broad range of compliant metal framing and finishing systems, backed by technical support from our Engineering and Sales Team. From framing and acoustic-rated systems to fire-rated finishing products, our range helped give the project team confidence from supply through to installation of this renowned project.

[build with confidence]
